

## Company Overview

Sunshine Company was founded with technical knowledge of its senior executives in order to promote clean fuels and preserve the environment. This company is one of the first manufacturers of heating equipment with clean fuel in the Middle East. Sunshine Company has been manufacturing solar water-heaters since 1990 in order to optimize energy consumption. Sunshine factories are built on a land area of 20,000 square meters with indoor halls consisting of equipped units such as press hall, powder paint line, assembly hall, welding line, warehouse, etc.

Relying on more than a decade of experience, technical expertise of engineers in the field of consulting, and designing as well as production, Sunshine has turned into one of the top manufacturers of this product in the region.

## **Business Description**

Solar energy is one of the most important sources of renewable energy in the world. This energy can be used both directly and indirectly. Currently, most countries are competing for the use of solar energy as excessive use of fossil fuel has resulted in global warming and they are also trying to reduce air-pollution globally.

Statistics show that emerging economies along with developed countries are expanding the use of solar water-heaters to get rid of fossil fuels. China, the United States, Germany, Turkey, Brazil, India and Japan are the leading countries that manufacture water-heaters. Using state-of-the-art machinery and high-tech equipment, Sunshine Company has managed to be one of the top manufacturers in the field of solar water-heaters.

### **Vision and**

Sunshine Trading Company intends to expand the diversity and efficiency of its products in the coming years.

Using expertise, knowledgeable personnel and high-tech machinery, Sunshine will meet the customers' needs all over the world to gain their trust and satisfaction. This company is planning to be one of the top three companies in the world in the field of solar water-heaters.

The values of Sunshine company:

Considering human resources as the most important capital of the company

Increasing the public use of clean energy to preserve the environment

Customer trust and satisfaction

Observing international requirements and workplace standards

Organizational integrity by empowering the staff

## **Mission and**

**Producing high-quality and marketable products suitable for the global markets**

**Constant monitoring of all stages of production from production to loading**

**Preserving the environment by using renewable energy**

**Producing solar water-heaters for different industrial, commercial and residential units**

**Using high quality raw materials for all stages of production and delivery.**

## Message from the CEO

Sunshine Trading Company is one of the leading manufacturers of solar water-heaters, which offers its products according to the customer needs and global standards using high-tech machinery and state-of-the-art equipment. Sunshine is an eco-friendly brand, and considers its customers, the staff and the society as its partners. Gaining customer satisfaction has always been our priority. We also intend to become a well-known brand in the world by producing high-quality solar water-heaters.

## **Different types**

**Thermosiphon water-heaters**  
**Pumped solar water-heaters**  
**Non-pressure water-heaters**  
**Pressure water-heaters**

## **Services**

**Sending catalogs via social networks and email**  
**Ensuring the most economical purchase**  
**Providing durable packages to prevent any type of damage**  
**Providing free consultation to purchase the most suitable water-heater**

## Delivery and Payment
